

C Series

25,000 lb. and 30,000 lb.
Dynamic Capacities

6' and 7' Widths
6' and 8' Lengths

■ Solid PIONEER Levelers Keep Working For You.

With standard 25,000 and 30,000 lb. dynamic capacities, the C Series Leveler has all the quality expected of a PIONEER product. Deck and lip are constructed of 55,000 lb. minimum yield steel tread plate. Lip keepers serve as night locks for security and provide safe cross-traffic support when unit is stored. Dock bumpers and grease fittings on lip hinge are standard with each unit.

■ Warranty

PIONEER provides a 1-year warranty on structural members and main springs. A 1-year warranty is provided on mechanical and miscellaneous parts (including materials, labor, and freight).

Full Length **Deck support beams** totally welded to solid steel full width front and rear cross members.

Positive Hold-down Device allows up and down float when in service. Automatic adjustment for air ride trailers is standard.

Fully mechanical, single-handed **Pull-chain Operation** means **NO LIFTING** or **STRAINING**.

The C Series incorporates simple, **Direct Extension Spring Design** with no moving parts—nothing to service!

Metric Specifications

11,340 and 13,608 kg Dynamic Capacities
1,829 and 2,133 mm Widths
1,829 and 2,438 mm Lengths

Rugged. Dependable. PIONEER.

C Series

Features & Specifications

ALL PIONEER Levelers meet or exceed the performance requirements of CS202-56, O.S.H.A., and A.N.S.I. MH14.1-1984

Durability

- Deck and lip are constructed of **55,000 lb. Minimum Yield Steel Tread Plate**.
- All PIONEER Levelers are exclusively equipped with **full length deck support beams**. Each beam is fully welded to a **Full-width Header Plate** (6") at the front of the Leveler.
- **Direct Extension Spring Design** has no moving parts—nothing to service!
- **Extra Heavy Rear Angle** with **Strategically Placed Gussets** provides maximum structural support and frame strength.
- **Molded Bumpers** included to protect dock face and Leveler from truck damage.
- **Continuous Hinge Design** with **Grease Fittings** included as standard with each unit.

Easy Installation

- Front and rear **Forklift Slots** provide easy access for maneuvering and installation.
- **Side Ports** allow unit to be suspended and lowered into pit from dock floor.
- Custom engineered **Rear Angle** is two inches wider than the Leveler, providing extra area to weld at both ends.

Simple Operation

- Conveniently located **Pull-chain** provides easy activation of deck and lip.
- Direct extension **Spring Counterbalance** provides easy walk-down.
- **Operating Range** of 12" above and 12" below dock allows Leveler to be recycled with the truck in position.
- **Automatic Lip** locks into position when extended and releases when unit is walked down to position on truck floor.

Safety

- **Maintenance Struts** are a standard feature on all C Series Levelers.
- **Positive Hold-down Device** allows up and down float when in service.
- PIONEER's **Counterbalance System** operates on simple, **Direct Extension Spring Design** with *no moving parts*. **Adjustment Nut** is located at the front of the Leveler for safe, easy access.
- **Lip Keepers** serve as night locks for security, and provide safe **Cross-traffic Support** when unit is stored. Deck tilts to a maximum of 4" from side to side to compensate for unlevel trucks.
- **Safety Legs** automatically provide below dock support in event of premature truck departure.
- **Working Range Toe Guards** protect workers from injury during loading and unloading.
