DuraSeal

R Series

### Seals and Shelters

Keep weather outside where it belongs and help save on utility costs. Available in most popular colors and fabrics such as vinyl, PX420, and neoprene. Options include wear shingles, tapered units, galvanized metal hoods and more

Pressure treated lumber and full length yellow guide stripes are standard with all PIONEER Dock Seals.

### GuardIt Safety Products

#### Protective Railing

Bollards, Corner Guards, Post/Door Track Protectors, and Safety Railing for added precaution and protection in dock areas.

#### Dock Lights

Double strut or adjustable extension arm models are available in standard lengths up to 90". Lightweight polycarbonate lamp heads won't dent or heat up. Optional fan attachment also available to ventilate railcar, truck or trailer environments.

SealTight

NoPest

Security Gate

Strip Door

### High Speed Fabric Roll Up Doors & Security Gates

of customer satisfaction.

HDH Series  
(Heavy Duty)

HP Series

P2000 Series

## Pit Levelers

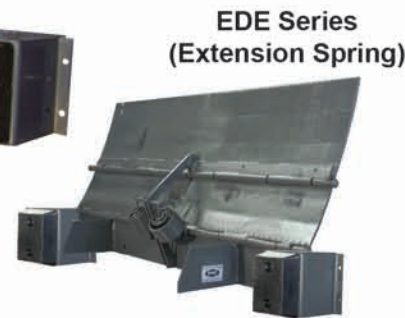

### ■ Mechanical and Hydraulic

Durable PIONEER Levelers are available in virtually every length, width, and capacity configuration.

“Safe. Dependable PIONEER products put safety first, providing maintenance struts as a standard feature on ALL Pit Levelers.”

BL Series  
(Torsion Spring)

EDE Series  
(Extension Spring)

## Edge-of-Dock Levelers

### ■ Mechanical, Barlift, and Hydraulic

Rugged, Edge-of-Dock Levelers are available in standard capacities up to 30,000 lbs. (BL Series up to 35,000 lbs.) in 66", 72", 78" & 84" widths. All models are available with or without bump blocks.

BLE/EDE (Extension Spring) Series Edge-of-Dock Levelers are available in capacities of 20,000 lbs., 25,000 lbs., and 30,000 lbs. in 66" or 72" widths.

“Long-Lasting. Fine crafted PIONEER Levelers offer maximum deck strength and durability to help eliminate deck failure. Our rugged structural channels have a “39% greater capacity to resist elastic bending moments” than other industry-accepted designs.”

## Versa Panel

Single panel fully integrates the controls for the dock leveler, the truck restraint, and the overhead door. Improves productivity and eliminates dock worker confusion by combining all these operations in one location. Ensures proper sequential operation of dock equipment thereby enhancing safety.

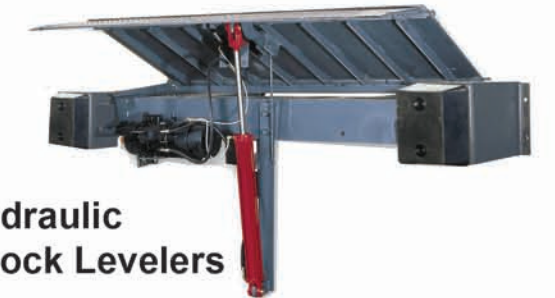

HED Series

## Wheel Chocks

Long-lasting molded rubber design can be chained to the dock. Also available in a laminated model.

Also Available...Pallet Pullers and Wheel Risers.

## Hydraulic Top-of-Dock Levelers

Versatile Hydraulic Top-of-Dock Levelers are perfect for retrofit situations where there is not an existing pit, and working range requirements exceed those provided by Edge-of-Dock Levelers.

“Easy to Operate. Our simple, straightforward design means few moving parts-making operation easy, while reducing the cost of maintenance and repair!”

## Truck Restraints

### ■ Automatic and Mechanical

Sturdy, low-profile PIONEER Truck Restraints bolt to dock face and ground, providing a restraining force of more than 50,000 lbs. Competitively priced and easy to install, our restraints make safety simple and affordable.

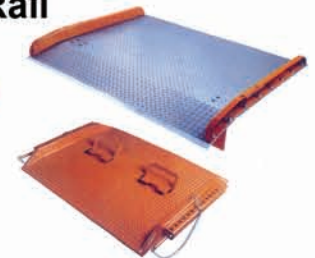

MVR Series

EVR650 Series

## Portable Dockboards for Truck and Rail

### ■ Steel and Aluminum

## Steel Yard Ramp

## Bumpers

Laminated and molded rubber construction bumpers are available in a broad array of shapes and sizes to fit your needs.
