

series 8000

For every taste, climate and budget.

The Wayne-Dalton Series 8000 gives you more choices. From entry level designs to high-efficiency insulated models and windload-rated doors for coastal regions, you won't find a broader range of choices than the entry-level Series 8000.

One Door Drive • Mt. Hope, Ohio 44660

Available with the TorqueMaster® Plus counterbalance system which seals springs safely inside a steel tube. This system also prevents the door from free-falling if the spring should ever fail.

Tamper-resistant safety bottom brackets help avoid possible injury by preventing inadvertent loosening when the counterbalance cables are still under tension.

Most Series 8000 doors are available with structural reinforcements for use in coastal regions. These models meet windload requirements of the International Building Code, Florida Building Code and Texas Dept. of Insurance.

Visit Wayne-Dalton's online Garage Door Design Center to compare and choose the door, windows and color that's perfect for your home. Go to www.Wayne-Dalton.com.

Choose for style.
Choose for performance.

series 8000
